

*Investing in better justice data and evidence to maximize impact and support innovation*

*HiiL will develop and share strategies to scale what works for the most pressing justice problems*

*Promoting international cooperation on justice to support national priorities through technical, programmatic, and financial support*

*The Netherlands will double the number of people justice through their development cooperation*

*Opening justice systems to empower people to access information and resolve their justice problems, and strengthen responsiveness to citizens through mechanisms of accountability*

*LegalApp, a free digital consultation tool, was launched in Colombia. The tool offers information on more than 260 "routes of justice" to solve a particular conflict/problem*

## **Beyond the People-Centered Justice in Ukraine Virtual Meetings:**

Following the national consultation series, the Justice for All team can aid in drafting and registering commitments, highlighting acceleration actions in the UN's Global Registry for the SDGs, and in sharing best practices and lessons learned on implementation.
